SUMMARY

• Have a good experience with web development projects using HTML, CSS React.js, TypeScript, Redux, and Java.
• Gained a good understanding of react.js, C++ with Object Oriented Programming, Data Structure & algorithm, and Operating Systems as part of coursework.
• worked in Infrastructure software Company for about a year.

SKILLS

PROGRAMMING LANGUAGES:
JavaScript (ES6+) • Typescript • C++ • Java

FRONT-END DEVELOPMENT:
React.js • Redux • NextJS • HTML5 • CSS3 / SCSS / Tailwind CSS / MUI

BACK-END DEVELOPMENT:
Node.js • Express.js • Django

DATABASE:
SQL • PostgreSQL • MongoDB

VERSION CONTROL:
Git • GitHub

TESTING:
Jest • Cypress

DEVELOPMENT PROCESS:
Agile/Scrum methodologies • Continuous Integration & Deployment

OTHERS:
Rest API • Software design patterns • Data Structures, and Algorithms

SOFT SKILLS:
Strong Problem-solving and Analytical skills • Effective communication and collaboration • Adaptability and Continuous Learning

EDUCATION

PROF. RAM MEGHE COLLEGE OF ENGINEERING & MANAGEMENT
BE in Computer Science & Engineering
June 2022
Cum. GPA: 8.45

COURSEWORK

• React - The Complete Guide 2023 (incl. React Router & Redux) - Udemy
• Web Development Bootcamp - Udemy
• The Complete JavaScript Course 2023: From Zero to Expert! - Udemy

EXPERIENCE

BENTLEY SYSTEMS | Graduate Trainee(Software Development)
Nov 2022 - Nov 2023 | Pune, India
- Actively engaged in web development using React.js, TypeScript, and Java, enhancing user experience. Demonstrated proficiency in React.js, TypeScript, HTML, and CSS.
- Optimized application performance, achieving a 20% improvement through seamless front-end/back-end integration. Utilized Redux for efficient state management, resulting in streamlined development. Managed dependencies with npm/yarn.
- Actively contributed to the design and development of a tailored Project Management Software for the Construction sector, resulting in a remarkable 15% increase in project efficiency. I executed seamless RESTful API integration and proficiently utilized Azure DevOps for effective version control.
- Cultivated a collaborative environment, fostering teamwork, open communication, and feedback. Demonstrated strong problem-solving and debugging skills, contributing to the timely and successful completion of projects.

PROJECTS

ICHAT - REAL TIME CHATTING WEBAPP | (GITHUB)
- Features a Sass Responsive Design with Mixin, and utilizes React-Router-Dom for seamless navigation.
- Implements React-Firebase Login with Email and Password for secure user authentication.
- Offers functionalities such as Login with Email and Password, User Search, Private Chat Message Retrieval, Real-time Message Sending, and Automatic Scrolling to the Latest Message.
- Tech Stack: React, Sass, React-Router-Dom, Firebase, Mixin

JOTION - A NOTION CLONE | (GITHUB)
- Seamless collaboration on a Next.js 13 and React-powered platform with a dynamic Notion-style editor for real-time document collaboration.
- Elevate user experience with a thoughtfully designed interface supporting Light and Dark modes, featuring an expandable sidebar for easy navigation.
- Take control with infinite children documents, a soft-delete trash can, and file management (upload, deletion, replacement) with real-time icon updates for efficient organization.
- Tech Stack: Next.js 13, React, Convex, Tailwind

SMARTSTUDIZ-DISCORD LIKE WEBAPP | (GITHUB)
- Developed an online room for studying using the Django web framework.
- Implemented a robust authentication system for user signup and login, ensuring secure access.
- Facilitated an interactive space for users to create study rooms, discuss various topics, and join existing rooms, fostering a collaborative learning environment.
- Tech Stack: Python, Django
